

« Training Manager », based in Switzerland, Germany or Belgium

Medidee Services is the Leading European Expert Consultancy Service supporting Medical Devices and In-Vitro Diagnostics compliance with international Regulatory requirements. This generally includes assistance for setting up Quality Management Systems, supporting Regulatory submissions and assisting with Clinical Affairs.

Based in Switzerland, Germany, Belgium, Denmark and the United States, we are active for clients world-wide. Besides consulting services, Medidee is also active in competences development initiatives, including:

- Large post-graduate programs such as Certificate of Advanced Studies with HEIG-VD (Yverdon-Les-Bains, CH), FHNW (Basel – Muttenez, CH), UCL (Louvain–La–Neuve, BE) and soon THL (Lübeck Germany).
- Contributions to MedTech related Bachelor and Master Programs of various Universities in Europe
- Specific short programs on technical topics delivered in-house or by industrial Clients.

With the growth of these activities, we seek the contribution of a passionate of both MedTech and continuous education, who would lead the positioning of Medidee as a partner in excellence for universities and industries.

Mission (by order of importance)

- Supervise the delivery operations of our continuous training programs by interacting with the various stakeholders in the following contexts:
 - Universities: coordinate communication of the programs, coordinate teachers planning, manage related administrative tasks
 - Students: providing information on programs, tracking until registration, measuring satisfaction
 - Teachers, including Medidee's: sourcing, qualifying, scoping, planning and monitoring delivery
 - Industrial Clients: designing and quoting specific programs, planning the delivery, invoicing
- Design, plan and support the promotion of the training portfolio, when applicable in collaboration with the academic partners
- Contribute to the design of new training programs, taking into account the evolution of the needs of the MedTech community, monitor the competition
- Develop alliance with new academic partners
- Deliver specific sections of the programs; this point is not mandatory and would form a great combination

Profile

- 7+ years in MedTech industry, either as Consultant or R&D Project Manager
- Strong interest in best practices and compliance aspects
- Acquired or natural leadership behaviors for managing projects and coaching clients
- Ability to deliver training to professionals.
